PROFESSIONAL SUMMARY

Passionate web developer focused on building dynamic and responsive web applications. Skilled in Python backend development with Flask and Django, SQL databases, and web technologies. Currently pursuing MCA and continuously improving backend development skills through practical projects.

TECHNICAL SKILLS

Languages: Python, HTML, CSS, JavaScript
Backend: Flask, Django
Database: SQL, MySQL, SQLite
Tools & Technologies: Git, GitHub, SQLAlchemy

PROJECTS

FitLife-Gym HTML, CSS, JavaScript, PHP, MySQL

- Created a responsive fitness website featuring modern UI and cross-device compatibility.
- Implemented user registration, secure login, plan purchase, and class information features.
- Created an admin dashboard to manage classes, user login details, and payment records.
- Used MySQL for efficient structured data storage and management.

Expense Tracker Flask, SQLAlchemy, MySQL

- Developed an expense tracking web application with modular backend architecture.
- Implemented user authentication with income and expense transaction management.
- Added dashboard features for monthly income, expenses, balance, and transaction history.
- Added month/year filtering, category summaries, edit/delete transactions, and expense breakdown.

Notes App Flask, Flask-WTF, SQLAlchemy, SQLite/MySQL

- Built a notes management web application while mastering Flask backend development.
- Implemented user registration/login and secure, user-specific note management.
- Used Flask, Flask-WTF, SQLAlchemy, and database relationships to manage users and notes.

EDUCATION

Sankalchand Patel University, Visnagar 2025 – Present

Master of Computer Applications (MCA) – Pursuing

Sankalchand Patel University, Visnagar 2022 – 2025

Bachelor of Computer Applications (BCA) – Completed bachelor's degree with focus on Python and web technology.

K.M. Kothari High School, Satlasna 2021 – 2022

12th Commerce (GSEB)

K.M. Kothari High School, Satlasna 2019 – 2021

10th (GSEB)

TRAINING

Qspider Training Institute Python & SQL Training

- Trained in core and advanced Python programming and SQL query optimization.
- Hands-on knowledge of web technologies including HTML, CSS, and JavaScript.
